US Optical's most advanced Personal Computer (PC-HD™) Freeform Progressive is our best in-house office lens.

The PC-HD™ is our ideal solution for near and intermediate vision. It is an excellent solution for those patients requiring extra vision while working at a desk, with computers, tablets, laptops, Apple products including iPads, iPhones, MacBooks and any number of digital devices.

It is an ideal solution for presbyopes such as office workers, cooks, artists, and doctors or anyone needing reading and intermediate vision.

BENEFITS AND FEATURES:

- 1 • USO's PC-HD™ offers different clear vision depths to accommodate patients with a visual solution that is perfectly suitable to their own individual needs.

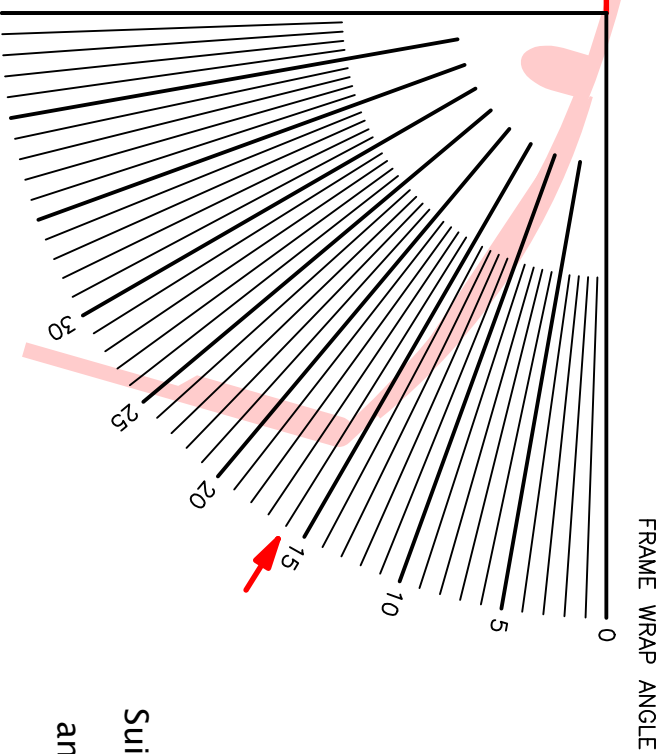

USO's PC-HD™ comes in three different modes for your personal needs:

	Add Power:
PC-HD™-Reading (Up to 4 feet of clear vision)	+1.25 to +3.50
PC-HD™-Desk (Up to 7 feet of clear vision)	+1.00 to +3.25
PC-HD™-Room (Up to 13 feet of clear vision)	+0.75 to +3.00

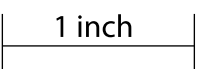

- 2 • It helps patients that have a special requirement for near as well as intermediate vision.
- 3 • Extremely comfortable lens relaxes your eyes.
- 4 • Reasonably priced freeform Office lens. Send us the normal RX and the PC HD lens design will automatically compensate the RX.
- 5 • Available in plastic, poly, Blu Tech (mid index lens which protects against blue light) and 1.67 index.
- 6 • Available in two minimum fitting heights: 14 MM and 18MM. Fitting Cross: 2 Above.
- 7 • Pricing of PC-HD:

PLASTIC: \$ 45
POLY: \$ 55
1.67 INDEX: \$ 80
BLU TECH: (MID INDEX) \$ 90

Power Ranges:
+500 to -600
+700 to -900
+800 to -600
+500 to -600
